Indy UCaaS CIO Summit 2019

WEDNESDAY, APRIL 24, 2019 | THE OCEANAIRE SEAFOOD ROOM | 6-9 PM

CIOs are betting on
Unified Communications in the Cloud.
Should you?

As the CIO, you are the driver of digital disruption and transformation. You know it's critical to begin drafting a blueprint today for your cloud migration tomorrow.

Our exclusive CIO Summit is a perfect place to get started. We are bringing together widely recognized thought leaders in the UCaaS marketplace to collectively discuss how they migrate, modernize, and innovate on Cloud.

PANEL DISCUSSION

- Join CBTS and Cisco for an executive dialog on the future of UCaaS strategies and how our approach is providing real business outcomes for our clients.
- Explore the strategic, operational, financial and technological imperatives that must be addressed to insure all critical requirements are met in to ensure a flexible, scalable, future-proof and cost-effective manner.
- Discuss how the integration of existing and emerging technologies into business operations can create new opportunities to capture insights that can contribute to accelerating critical business objectives.

Ask our panel
your toughest
questions.
