Webex for Primary Education

69%

of teachers said that technology can be used to support any subject ¹

Enable virtual teaching/learning for schools and improve administrative efficiency

Why Webex:

Administration

Securely enable collaboration solutions

- End-to-end encryption to meet rigid security requirements.
- Centralized management, simple deployment, and easy integration.
- Integrates with Canvas by Instructure, Blackboard Learn, Moodle, Brightspace by D2L, Sakai, and more.
- Easy-to-use end user tools for rapid adoption.
- Full control over students' audio and sharing privileges.
- Virtually connect district for large assemblies without travel or safety concerns.

Teachers

Blend traditional and digital learning

- Engage in secure video classroom atmosphere.
- Share documents, whiteboard, and chat during lessons to accommodate multiple learning styles.
- Teachers have full control of students' audio and sharing privileges.
- Instructors can see if students are using different applications or not paying attention.
- Easily share resources and communicate with students and peers outside of class.

Students and Parents

A more intuitive way to learn

- Access to on-demand learning anytime, anywhere.
- Simple communications between parents, teachers, and faculty.
- Creates access to multiple learning styles, video, file sharing, and whiteboarding.
- Recorded classes can be accessed anytime if students cannot attend.
- Deliver access to administrative and academic services on any device.

Why CBTS?

CBTS is a Cisco Gold certified partner. CBTS is third-party audited and was given the designation of a Cisco Webex Master Service Provider based on our ability to design, deliver, implement, and support Cisco Webex solutions. We are committed to a successful implementation so we assign a Project Manager to help you every step of the way. We provide free end user and administrative training to ensure a successful on-boarding experience. Support is handled by CBTS 24x7x365 by our U.S.-based Advanced Technical Service team. Cisco Webex is the best-in-class collaboration and meeting solution for business. Companies can minimize wasted time and expense by empowering their employees to meet instantly and securely via any device and collaborate in real time.

We hope to help you with your custom unified communications solution soon. If you have questions or would like to speak with an expert, contact us at cbts.com.
