

Webex for Criminal Justice Systems

Enable collaboration, reduce travel cost, and improve public safety

Why Webex:

Law Enforcement

Real-time collaboration

- Securely access e-warrants, connecting courts to the squad car for improved efficiency.
- Video arraignments would reduce safety concerns and travel costs.
- Gain access to interpreters remotely to instantly remove language barriers.
- Sessions can be recorded for transparency and record keeping purposes.
- Speed up response times through streamlined communications.

Courts

Reduced cost and delays

- Experts and witnesses can testify remotely, efficiently utilizing resources.
- Court delays due to travel times and logistical issues can be avoided.
- Remote hearings for interpreters can lower costs, improve efficiency, and help prevent logistical delays.
- Sessions can be recorded for transparency and record-keeping purposes.

Corrections

Increased safety and convenience

- Provide video meetings with practitioners, specialists, and evaluations for prisoners to improve public safety and reduce travel cost.
- Faster access to remote interpreters for quicker response to medical, counsel, or inmate management needs.
- Face-to-face prisoner visitations are enabled while eliminating dangerous situations and the risk of contraband being provided to prisoners.
- Inmates can be provided with instant access to counsel and the court without transportation, security, or logistical delays.

Why CBTS?

CBTS is a Cisco Gold certified partner. CBTS is third-party audited and was given the designation of a Cisco Webex Master Service Provider based on our ability to design, deliver, implement, and support Cisco Webex solutions. We are committed to a successful implementation so we assign a Project Manager to help you every step of the way. We provide free end user and administrative training to ensure a successful on-boarding experience. Support is handled by CBTS 24x7x365 days a year by our U.S.-based Advanced Technical Service team. Cisco Webex is the best-in-class collaboration and meeting solution for business. Companies can minimize wasted time and expense by empowering their employees to meet instantly and securely via any device and collaborate in real time.

We hope to help you with your custom unified communications solution soon. If you have questions or would like to speak with an expert, contact us at [cbts.com](https://www.cbts.com).
