

# Microsoft Licensing Optimization

Analyze licensing adoption and utilization to uncover cost efficiencies.

## What is Microsoft Licensing Optimization?

A licensing optimization engagement with CBTS begins with a review of your organization's entire Microsoft licensing environment based on contracted values and usage of services to determine where immediate efficiencies and cost savings can be realized and provide a road map for future IT licensing needs.

Let CBTS show you how to get the most out of your Microsoft investment. You'll be surprised how unlocking the full potential of your current Microsoft solutions can transform your organization.

## Process overview

### Step 1

Determine current  
license value

### Step 2

Review  
license utilization

### Step 3

Identify  
cost optimizations

### Step 4

Provide conclusion and  
recommendations
